ReactJs	

Back End

Auth   NodeJs

RESTful API   ExpressJS   NoSQL

Other

Java   Firebase   Git   Python

ABOUT

I am a full-stack web developer.
I navigate seamlessly between creativity, logic, and organization. I am hard-working and a quick-learner. I have an analytical mind and think pragmatically in order to solve any problem. In my spare time, I like to play basketball, hang out with with my rescue Greyhound, and fix up old bikes.
